

# Burton APEX LED Surgical Light | Double Ceiling Mounted

Stock Photo - Options May Vary

## FACTORY NEW

The Burton APEX LED Surgical Light Double Ceiling is engineered for advanced operating environments, delivering up to 160,000 lux for exceptional illumination. Tri-lobe LED technology reduces shadows and enhances clarity, enabling clinicians to achieve superior visibility and accuracy during procedures. The high CRI above 97 ensures accurate color rendering for precise tissue differentiation.

The balanced arm system allows smooth positioning with no drift during procedures. The seamless, low-profile design simplifies cleaning and supports strict infection control standards. Five dimming levels and endoscopy mode enable teams to adapt lighting instantly to clinical needs.

This system offers long-lasting performance with over 50,000 hours of LED life and flexible mounting configurations. Users can select single, dual, or triple ceiling mounts to fit their clinical environment.

## FEATURES

- Tri-lobe LED technology for superior shadow reduction
- Up to 160,000 lux high-intensity illumination
- High CRI >97 for accurate color visualization
- Five adjustable dimming levels for precise control
- Endoscopy mode for specialized procedures
- Drift-free, balanced arm for stable positioning
- Seamless design for easy cleaning and infection control
- 50,000+ hour LED lifespan for long-term reliability

## SPECIFICATIONS

- Illuminance: 130,000–160,000 lux
- Color Temperature: 4300 K
- CRI: >97
- Light Head Diameter: 22 in (56 cm)
- Depth of Illumination: 47 in (119 cm)
- Light Field Diameter: 9.5 in (24 cm)
- LED Life: >50,000 hours
- Dimming Levels: 5 settings
