Burton Super Exam LED Floorstand | SELEDFL

Stock Photo – Options May Vary

FACTORY NEW

Burton SELEDFL – Super Exam LED Floorstand gives clinicians strong, focused light for exams and procedures. It delivers up to 35,000 lux at 1 m, so you can see clearly. In addition, the 4000K color temperature gives clean, natural white light.

A CRI above 95 shows tissue and skin tones accurately. As a result, clinicians get steady lighting in exam rooms and specialty settings. Meanwhile, the stable rolling base on the Burton SELEDFL makes it easy to move the light from room to room.

The flexible, drift-free, spring-balanced arm moves smoothly and stays where you put it. Furthermore, users can adjust the light quickly without interrupting their work.

FEATURES

- High-performing energy-efficient LED module with 50,000-hour rated life
- Flexible drift-free spring-balanced arm
- Power and dimming switch positioned near the handle
- SteriTouch® coating inhibits the growth of bacteria
