

# Burton XenaLux Mobile Light Source Stand | 880300

Stock Photo - Options May Vary

## FACTORY NEW

The Burton XenaLux 880300 Mobile Light Source Stand provides stable, vertical support for XenaLux Xenon Lamp Illuminators in surgical and procedural settings. The mobile design allows clinicians to reposition the light source quickly without disrupting workflow, improving flexibility during procedures.

The stand features durable construction built for demanding clinical environments. The upright assembly securely holds the illuminator while keeping equipment organized and accessible, with an integrated platform that allows safe placement of the illuminator unit during use.

Designed specifically for XenaLux surgical lighting systems, this professional-grade stand is ideal for hospitals, surgical centers, and specialty clinics. The mobile floor stand provides reliable positioning of surgical xenon light sources while optimizing workspace layout and equipment stability.
