Champion 430 Gas Lift Stool

Stock Photo – Options May Vary

FACTORY NEW

The Champion 430 Gas Lift Stool is a versatile medical stool that offers the perfect blend of durability and mobility. It supports clinicians during busy shifts and intense procedures. You can move effortlessly between patients thanks to the smooth-rolling casters.

Consequently, your team stays comfortable and efficient throughout the entire day. Finding the right height takes only a second. The integrated gas lift mechanism on the Champion 430 adjusts the seat with a simple pull of a lever.

Therefore, every staff member can quickly find their ideal ergonomic position. This feature reduces physical strain during long examinations or laboratory tasks.

FEATURES

• Gas Lift Adjustment: Allows for quick, one-touch height changes to suit different clinicians
• 360-Degree Swivel: Provides a full range of motion for easy movement around patients
• High-Impact Base: Features a five-leg design for maximum stability during procedures
• Durable Vinyl Upholstery: Resists stains and stands up to frequent medical-grade disinfectants
• Compact Footprint: Fits easily into tight exam rooms or small laboratory stations

SPECIFICATIONS

• Weight Capacity: 250 lbs
• Seat Height Range: 16.5" – 21.75" (standard gas lift)
• Seat Diameter: 16"
• Base Diameter: 22"
• Base Material: High-impact black plastic
