

Edan iM3 Vital Signs Monitor – New

Stock Photo – Options May Vary

FACTORY NEW

Edan iM3 Vital Signs Monitor – New. The Edan iM3 Vital Signs Monitor features up-to-date technology for tracking vital signs. Additionally, it was built to make daily use easier.

Furthermore, its built-in WiFi, simple data storage, and easy review make it Edan's most user-friendly vital signs monitor. Moreover, this monitor supports hard key and knob operation for simple use. As a result, staff can move through menus without extra steps.

Specifically, continuous, spot, and round modes give staff flexible ways to track vitals. In addition, this monitor works with the MEWS, EWS, and NEWS score systems.
