GE Datex Aespire Anesthesia Machine – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

GE Datex Aespire Anesthesia Machine – Refurbished. At the heart of the GE Datex Aespire ®Anesthesia Machine are the convenience, efficiency, and accuracy of the SmartVent™ ventilator.

Additionally, offering Pressure and Volume Modes, the easy-to-use SmartVent enables the Aespire ® to ventilate a broad range of patients: Neonates, trauma, compromised, and routine cases. The Volume Control mode delivers the tidal volume you set, regardless of changes in the fresh gas flow and airway pressure – the pressure is selectable by the user's pressure limit.

Additionally, the innovative compensation system optimizes low-flow delivery techniques.

FEATURES

- SmartVent™ ventilator
- Integrated patient breathing system with circle module
- O2 and N2O gas delivery
- Pressure and Volume Controls enables the Aespre® to ventilate a broad range of patients: neonates, trauma, compromised and routine cases
- Compensation System: Optimizes low flow delivery techniques
