Drager Apollo Anesthesia Machine – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Drager Apollo Anesthesia Machine: Refurbished. The refurbished Dräger Apollo Anesthesia Machine offers reliable performance, combining proven design with modern technology to meet the needs of today's operating rooms. It supports a wide range of patient needs and undergoes thorough inspection and refurbishment to ensure top performance and safety.

Moreover, the Apollo remains a trusted choice for medical facilities. The Apollo delivers ICU-quality ventilation with an electrically powered piston ventilator, eliminating the need for drive gas.

This simplifies setup and boosts efficiency. Its enhanced monitoring system gives real-time data, helping clinicians make informed decisions and ensuring reliability and precision during surgeries.
