Drager Fabius GS Anesthesia Machine – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The Refurbished Drager Fabius GS Anesthesia Machine blends reliable German engineering with advanced ventilation features, making it ideal for various operating rooms. Known for durability and consistent performance, the Fabius GS offers hospitals, surgical centers, and clinics a high-quality anesthesia machine at an affordable price.

Its versatility and dependability make it a smart choice for facilities looking for both value and performance. The Fabius GS is compact and easy to use, combining classic design with modern technology.

Moreover, its simple controls make anesthesia delivery easier for all surgeries, helping healthcare professionals work efficiently and confidently. Each refurbished unit undergoes rigorous biomed inspections and is fully tested to meet OEM standards.
