SSCOR Duet 2314 Aspirator Suction Unit – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

SSCOR Duet 2314 Portable Aspirator Suction Unit – Refurbished is built for versatility and performance in critical care environments. Perfect for hospital crash carts, patient transport, surgical center backup, and long-term care facilities. This compact unit delivers strong, dependable suction where and when you need it most.

Additionally, operates on AC power and features a built-in battery backup for emergency use. Provides instant suction, even during power outages or patient transport scenarios. When fully charged, the battery offers approximately 45 minutes ±10% of run time.

The Duet 2314 is designed for quick setup and ease of use in urgent situations. Furthermore, each unit includes a canister, patient tube, power cord, and Quickstart Guide.
