DuraSonic .75 Gallon Digital Ultrasonic Cleaner | DS230D

Stock Photo – Options May Vary

FACTORY NEW

DuraSonic DS230D .75 Gallon Digital Ultrasonic Cleaner. The new benchmark in bench-top cleaning! Durasonic is the sound choice, now offering Ceramically Enhanced Transducers and a lifetime guarantee.

DuraSonic's Rugged Industrial-Strength Performance gives you consistent quality at a bench-top price. The driving force is the power source: while industrial stack transducers are known for reliability, bench-top cleaners use wafer-thin discs. Durasonic now brings full-wave 45 kHz Ceramically Enhanced Industrial Transducers to the Benchtop line.

Each unit includes either 0-30 minute analog or 0-99 minute digital timers and thermostatically controlled heaters for efficiency. Compare features when evaluating bench-top cleaners—there is no comparison.

FEATURES

- Digital model with timer, heat, power control, and degas
- Ceramically Enhanced Transducers
- All stainless steel enclosures resist damage from chemical spills and will not crack
