DuraSonic 1 Gallon Ultrasonic Cleaner w/Heat & Mech Timer | DS360HT

Stock Photo – Options May Vary

FACTORY NEW

DuraSonic DS360HT Ultrasonic Cleaner w/Heat & Mech Timer. The new benchmark in benchtop cleaning! Durasonic is the Sound Choice and is Now Available with Ceramically Enhanced Transducers and Lifetime.

DuraSonic's Rugged Industrial-Strength Performance gives you consistent quality at a benchtop price. The driving force is the power source: While industrial stack transducers are known for reliability, benchtop cleaners rely on wafer-thin discs. Durasonic brings the superior performance of full-wave 45 kHz Ceramically Enhanced Industrial Transducers to the Benchtop line.

All units include 0-30 minute analog or 0-99 minute digital timers. Additionally, the thermostatically controlled heaters enhance efficiency. When comparing benchtop cleaners, focus on features—there is no comparison.

FEATURES

- Analog model with timer and adjustable thermostatically controlled heater
- Ceramically Enhanced Transducers
- All stainless steel enclosures resist damage from chemical spills and will not crack
- Sweep Frequency 45 kHz
