DuraSonic 2.5 Gallon Digital Ultrasonic Cleaner | DS1200D

Stock Photo – Options May Vary

FACTORY NEW

DuraSonic DS1200D 2.5 Gallon Digital Ultrasonic Cleaner. The new benchmark in benchtop cleaning! Durasonic stands as the sound choice, now available with Ceramically Enhanced Transducers and a lifetime warranty. DuraSonic's Rugged Industrial-Strength Performance gives you consistent quality at a benchtop price.

The driving force is the power source: Industrial stack transducers are reliable, but benchtop cleaners use wafer-thin discs for energy. Durasonic brings superior performance with full-wave 45 kHz Ceramically Enhanced Industrial Transducers to benchtop cleaners. Additionally, units come with either a 0-30 minute analog or 0-99 minute digital timer.

Heaters are thermostatically controlled for optimal efficiency.

FEATURES

- Digital model with timer, heat, power control, and degas
- Ceramically Enhanced Transducers
- All stainless steel enclosures resist damage from chemical spills and will not crack
- Sweep Frequency 45 kHz
