FACTORY NEW

DuraSonic DS1100D 3.25 Gallon Digital Ultrasonic Cleaner. The new benchmark in benchtop cleaning! Durasonic is the sound choice, now available with ceramically enhanced transducers and a lifetime warranty.

DuraSonic's Rugged Industrial-Strength Performance gives you consistent quality at a benchtop price. The driving force is the power source: Industrial stack transducers offer superior reliability, while benchtop cleaners rely on wafer-thin discs for energy. Durasonic now delivers the performance of full-wave 45 kHz Ceramically Enhanced Industrial Transducers to benchtop cleaners.

Each unit includes a 0-30 minute analog or 0-99 minute digital timer. The thermostatically controlled heaters enhance efficiency. When comparing benchtop cleaners, remember to compare features—there's no comparison.

FEATURES

• Digital model with timer, heat, power control, and degas
• Ceramically Enhanced Transducers
• All stainless steel enclosures resist damage from chemical spills and will not crack
• Adjustable, thermostatically controlled heaters (ambient to 80°C)
