FACTORY NEW

DuraSonic DS1100HT 3.25 Gallon Ultrasonic Cleaner w/Heat and Mechanical Timer. The new benchmark in benchtop cleaning! Durasonic is the sound choice, now available with Ceramically Enhanced Transducers and a lifetime warranty. DuraSonic's Rugged Industrial-Strength Performance gives you consistent quality at a benchtop price.

The driving force is the power source: Industrial stack transducers deliver superior reliability, while benchtop cleaners use wafer-thin discs. Durasonic now brings full-wave 45 kHz Ceramically Enhanced Industrial Transducers to benchtop models. Each unit includes either a 0-30 minute analog or 0-99 minute digital timer.

The heaters are thermostatically controlled for efficiency. When comparing benchtop cleaners, compare features—no other unit compares to Durasonic's performance.

FEATURES

• Analog model with timer and adjustable thermostatically controlled heater
• Ceramically Enhanced Transducers
• All stainless steel enclosures resist damage from chemical spills and will not crack
• Sweep Frequency 45 kHz
• Adjustable, thermostatically controlled heaters (ambient to 80°C)

SPECIFICATIONS

• Capacity: 3.25 Gallons
• Dimensions: 11.75" x 9.5" x 8"
• All Stainless Steel Enclosures
• Timer: 0 - 30 Minutes
• Lifetime Heater Warranty
