Edan SE-601A 6-Channel ECG

Stock Photo – Options May Vary

FACTORY NEW

Edan SE-601A 6-Channel ECG. The Edan SE-601A 6-Channel ECG provides dependable heart testing for clinics and medical offices. EdanUSA, founded in 2009, supports all U.S. sales with local service and support. Each unit includes a three-year manufacturer’s warranty.

As a result, healthcare providers receive reliable equipment they can trust for daily use. In addition, EdanUSA offers prices that run 30% to 40% lower than major U.S. competitors. This pricing helps clinics reduce costs while maintaining strong performance.

Therefore, providers can improve patient care without exceeding their budgets. The Edan SE-601A ECG system combines performance with ease of use.

FEATURES

- FDA Approved
