Edan SE-601B 6-Channel ECG

Stock Photo – Options May Vary

FACTORY NEW

Edan SE-601B 6-Channel ECG. The Edan SE-601B 6-Channel ECG gives clear and dependable heart testing for clinics and medical offices. Since 2009, EdanUSA has supported U.S. customers with local service and fast help. In addition, every Edan ECG includes a three-year manufacturer's warranty.

As a result, providers receive trusted equipment at a lower cost. Most buyers save 30–40 percent compared to major U.S. brands. Next, the SE-601B ECG machine includes helpful features that improve daily use.

It measures heart rate variability, R to R trends, and pacemaker signals. It also supports adult and pediatric patients. The automatic analysis software speeds up results.

FEATURES

- FDA Approved
- Heart rate variability (HRV) & R to R Trending analysis
- Portable, lightweight design
- Easy data input and operation
- Alphanumeric keyboard and one-touch operation
