Enthermics 18-Blanket Warming Cabinet | DC400

Stock Photo – Options May Vary

FACTORY NEW

Enthermics DC400 Blanket Warming Cabinet – New. This quiet, efficient countertop cabinet has no moving parts, so it suits labor and delivery rooms, ICUs, and NICUs. The patient-friendly design lets you place it right where you need it.

In addition, nurses and aides can spend less time on blankets and more time on care. Soft blue lights inside the cabinet create a calm feel for patients. Meanwhile, WarmSafe zone heating warms blankets fast to the right temperature.

The heated shelves also keep warmth steady across the whole cabinet, so every blanket heats evenly.

FEATURES

- LED interior lighting casts a comforting blue glow with two (2) different intensity settings and off-mode
- In the event of a power failure, the cabinet will remember its programming and begin to operate as before when power is restored
- A warming shut-off system, separate from the electronic control, prevents overheating
- The access point and the plug have been added to the back panel to allow the appliance owner to add their data logger or temperature management hardware
- Single-chamber warming cabinet White epoxy-coated steel exterior casing and interior insert
