Hospira Abbott Plum A+ Infusion Pump – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Hospira Abbott Plum A+ Infusion Pump – Refurbished. The refurbished Hospira Abbott Plum A+ Infusion Pump is a reliable, dual-channel infusion system designed for precise and flexible IV medication delivery. Moreover, fully refurbished and biomedically inspected, this pump meets safety standards, providing a reliable, cost-effective option for hospitals and clinics.

In addition, key features include secondary infusion, dual medication delivery, and air-in-line detection to support safe, accurate treatment. The Plum A+ system also supports a wide range of infusion therapies, including critical care, general medicine, and oncology treatments.

As a result, the Plum A+ Pump streamlines medication delivery and reduces errors with its simple interface and reliable performance.
