

InPro Cubicle Curtains | EZE-Swap™

Stock Photo - Options May Vary

FACTORY NEW

InPro EZE-Swap™ Cubicle Curtains reduce curtain change-out times and save money with the innovative Snap Panel System. This system eliminates the need for ladders during curtain changes, making the process safer and more efficient.

EZE-Swap™ curtain panels are compatible with existing snap panel systems, allowing for easy replacement without additional tools. The panels snap into place effortlessly and can be configured to any length, offering flexibility and convenience in healthcare environments.

The EZE-Swap™ system also reduces downtime, allowing facilities to maintain privacy and cleanliness with minimal disruption. With a durable design, these panels ensure long-term performance, even in high-traffic areas.
