MCM Lift Assist 6-Leg/28 Hook I.V. Pole | MCM 253

Stock Photo – Options May Vary

FACTORY NEW

The MCM 253 Lift Assist I.V. pole lifts heavy loads when you turn the crank, which helps prevent back injuries. Mid Central Medical is an American company that makes high-quality medical equipment to serve the demands of America's healthcare industry.

In addition, the MCM 253 shown has a 28-hook top, so staff can hang many bags at once. The pole adjusts in height from 56″ to 96″, and its stable 6-leg base keeps it steady. Meanwhile, the 3″ scuff-resistant casters give smooth maneuverability.

The pole needs no electric motors or hydraulic pumps, so it keeps maintenance costs low. What This MCM 253 I.V.
