MCM Lift Assist 6-Leg/8 Hook I.V. Pole | MCM 252

Stock Photo – Options May Vary

FACTORY NEW

MCM 252 Lift Assist IV Pole lifts heavy loads when you turn the crank, which helps prevent back injuries. Mid Central Medical is an American company that makes high-quality medical equipment to serve the demands of America's healthcare industry. In addition, the MCM 252 shown has a 4-hook top for hanging your bags and lines.

The pole adjusts in height from 56″ to 96″, and its 6-leg base gives you the stability you need. Meanwhile, the 3″ scuff-resistant casters give staff great maneuverability. The pole has no electric motors or hydraulic pumps, so there is nothing to worry about or replace.
