MCM Lift Assist 6-Leg/4 Hook I.V. Pole | MCM 251

Stock Photo – Options May Vary

FACTORY NEW

MCM 251 Lift Assist IV Pole lifts heavy loads when you turn the crank, which helps prevent back injuries. MCM is committed to making high-quality medical equipment that serves the demands of America's healthcare industry. In addition, the MCM 251 shown has a 4-hook top for hanging your bags and lines.

The pole's height is adjustable, and its 6-leg base gives you the stability you need. Meanwhile, the scuff-resistant casters give staff great maneuverability. The pole has no electric motors or hydraulic pumps, so there is nothing to worry about or replace.
