

# MCM Wall Mount Rack for Patient Slider Boards | MCM 120

*Stock Photo - Options May Vary*

## **FACTORY NEW**

The MCM 120 is a wall-mounted rack designed to hold full or half-length slider boards in medical facilities. Constructed from durable stainless steel, it provides easy cleaning and maintenance while keeping boards organized and off the floor to save valuable space.

The sturdy construction secures boards and protects them from damage and wear. Its smooth, corrosion-resistant finish supports infection control protocols by keeping equipment off surfaces where germs can spread. The wall mount design offers quick access to essential patient care equipment, improving workflow and efficiency.

Ideal for hospitals, clinics, and rehab centers, the MCM 120 enhances organization in patient care areas. Installation is straightforward with simple setup on most wall surfaces, making it a practical storage solution for busy medical settings.
