

# MCM 25" Roller Board Cover | MCM 124

Replacement Cover Only

*Stock Photo - Options May Vary*

## FACTORY NEW

The MCM 124 is a 25" replacement cover designed to extend the life of patient transfer roller boards. Over time, roller board surfaces can become cracked, cut, or worn, affecting both safety and hygiene. This cover offers a simple, affordable alternative to replacing the entire board, allowing facilities to swap out the cover and keep the existing frame in use.

The cover is built to match Midcentral Medical's roller boards and provides a snug, reliable fit. The material ensures smooth transfers and easy cleaning between uses, maintaining performance standards required in clinical settings.

Installation requires no tools or technicians—simply slide the old cover off and the new one on in minutes. This tool-free replacement minimizes disruptions in fast-paced environments like operating rooms and inpatient units while helping facilities maintain patient safety and equipment longevity.

## FEATURES

- Will fit roller boards made by almost all manufacturers.
- Stainless steel construction.

## SPECIFICATIONS

- Length: 25"
- Width: 15"
