FACTORY NEW

MCM 286 Double IV Pole with Steering Wheel and Tray. The MCM 286 is a dependable solution for managing multiple IV lines in fast-paced medical environments. It features a height-adjustable design that makes handling and changing IV bags easier and more efficient.

Built with convenience in mind, this pole helps streamline care and reduce clutter around the patient area. A full-circle steering wheel allows for smooth, controlled movement, even when loaded with several IV pumps or bags.

This standout feature enhances maneuverability in tight spaces, making transport easier for staff. The double-pole design supports multiple IV setups simultaneously, offering flexibility during complex treatments or procedures.

FEATURES

- Keep IV lines organized to make it easy to change IV bags
- Full circle steering wheel
- An ultra-stable 6-leg spider base ensures that all will remain straight with the world no matter what you hang on the pole
- The steering wheel is powder-coated steel for longevity
- Removable plastic tray for easy cleaning.

SPECIFICATIONS

- Height: From 85" - 110"
- Casters: 3" Ball Bearing
- Base: 6-Leg Spider Base
- Construction: Stainless Steel
- Finish: Powder Coated
