FACTORY NEW

MCM 230: IV Pole Steering Wheel. Mid Central Medical manufactures the MCM 230 to improve mobility and control during patient care. As a trusted American company, Mid Central Medical delivers durable, high-quality medical equipment built to meet the rigorous demands of today's healthcare facilities across the United States.

The MCM 230 features rugged epoxy-coated steel construction, ensuring long-term durability in fast-paced clinical environments. Furthermore, clamps securely to any 1-inch IV pole and tightens with two Allen screws for a strong, slip-resistant hold.

The MCM 230 steering wheel accessory helps healthcare professionals maneuver IV poles more easily and safely, especially in tight or crowded spaces.
