FACTORY NEW

MCM IV Oxygen Tank Holder: MCM 229. Choose the MCM 229 for secure, convenient oxygen tank support in any clinical setting. Mid Central Medical manufactures this holder to meet the high standards of America's healthcare industry. Moreover, the durable stainless steel construction delivers long-lasting strength and reliability.

As a result, healthcare professionals can trust consistent performance in demanding environments. Additionally, the MCM 229 Oxygen Tank Holder features a slim, easy-to-clean design that supports infection control protocols. It accommodates all standard-size oxygen tanks up to 4.5 inches in diameter.

Therefore, facilities can streamline equipment compatibility without extra adjustments. The holder mounts anywhere on an IV pole using a universal clamp, sold separately.
