MCM Instrument/Back Table with Drawers | MCM 549

Stock Photo – Options May Vary

FACTORY NEW

MCM 549 Instrument/Back Table with Drawers offers strong construction for long-term use in surgical settings. It includes three drawers on smooth ball-bearing glides, and the drawers open fully so staff can reach every part inside. In addition, the table holds up well under daily use.

Its durable build supports heavy loads without shaking or shifting, so it suits high-demand medical spaces. The wide work surface gives you plenty of room for tools and medical supplies. Meanwhile, staff can organize everything clearly, which speeds up procedures and reduces clutter.

Doctors and nurses reach what they need fast, and the surface stays steady during use.
