

MCM Mobile Base Arm and Hand Table | MCM 320-MB

FACTORY NEW

The MCM 320-MB Mobile Base Arm and Hand Table from Mid Central Medical provides support and easy movement during surgery. It works well with stretchers and operating tables, giving medical teams more options. The table comes in two shapes, hourglass or rectangular, so it fits many types of patients and procedures.

When used on stretchers or OR tables, the MCM 320-MB requires clamps for secure attachment. These clamps ensure the table remains firmly in place throughout the procedure. Its mobile base allows for smooth repositioning, even during active surgeries, helping maintain efficiency and precision.

Designed for durability, the MCM 320-MB features strong construction that supports repeated use in demanding clinical environments. Its versatility makes it ideal for multiple specialties and surgical needs. The balance between strength and mobility makes it a valuable tool in any operating room.

Stock Photo - Options May Vary

FEATURES
