MCM SS Height Adj. Instrument Table, 36 x 24 | MCM 531

Stock Photo – Options May Vary

FACTORY NEW

MCM 531 – SS Height Adjustable Instrument Table. The MCM 531 gives surgical teams strong, flexible support. It is made in the USA to meet the high standards of healthcare workers.

In addition, the table adjusts up to 20 inches in height, so staff can use it in many procedures. Its legs fit around the operating table, which saves space and improves access during surgery. A hand crank makes height changes simple and smooth, so staff can adjust the table quickly without slowing down the workflow.

Medical staff like this flexibility because it supports better ergonomics and patient care.
