FACTORY NEW

Medical Illumination MI 500 LED Exam/Diagnostic Single Ceiling Light – XLDE-SC. The MI 500 light is part of the "cutting-edge" MI LED SERIES by Medical Illumination International. EFFICIENT: The MI 500's LED life averages 50,000 hours.

It uses significantly less electric consumption than standard halogen lights. The MI 500 LED Features: The light beam and head emit very low heat, making them part of our efficient LED solution. Additionally, the MI 500 light boasts a brightness output of 50,000 lux (4,600 foot-candles) at a distance of 24″, offering a whiter, more color-correct light.

Despite its 6″ diameter, its compact head design is powerful and offers excellent arm articulation.
