Mindray Passport 12m Patient Monitor w/ Co2 – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Mindray Passport 12m Patient Monitor w/ CO2 – Refurbished. This monitor gives care teams clear, real-time readings for mid- to high-acuity patients. This refurbished unit comes with a built-in CO2 module for steady breathing checks.

Moreover, its 12.1-inch touchscreen shows sharp, easy-to-read numbers and waves. Simple menus and quick touch keys make the monitor easy to use during busy shifts. In addition, care teams can add extra parts like BIS and gas checks as needs grow.

The Mindray Passport 12m works well in step-down units, ICUs, and operating rooms. It also tracks heart rhythm changes for closer checks.
