Mindray Passport 12m Patient Monitor w/ AG Module – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Mindray Passport 12m Patient Monitor w/ AG Module – Refurbished. This monitor pairs clinical accuracy with flexibility for mid- to high-acuity care. Its built-in AG (Anesthesia Gas) module gives continuous tracking of anesthesia gases for better respiratory and anesthetic care.

The 12.1-inch touchscreen offers clear, easy-to-read visuals and simple control. Quick-access menus and touch keys keep the workflow simple during busy shifts. In addition, this monitor covers arrhythmia detection and 12-lead ECG checks.

It also tracks up to eight blood pressure lines and links easily to EMR systems. Care teams can add extra modules like BIS and gas monitoring as needs grow.

FEATURES

- 12.1″ high-resolution touchscreen display.
- Familiar intuitive interface across the Passport family.
- Customizable screen views and quick keys for diverse patient and clinical settings.
- Robust measurement set for intermediate to critical care environments.
- Supports T1 Transport Monitor/Module as a multi-parameter module.
