MPD Optional Software Proximity Kit Accessory | TPR-SW

Stock Photo – Options May Vary

FACTORY NEW

MPD Optional Software Proximity Kit Accessory: TPR-SW. The TPR-SW boosts your facility's security and data management. It integrates easily with MPD proximity lock carts.

Because it includes advanced features, your team gains more control over access and records. With the TPR-SW, use tools like Audit Trail, Audit Lock, and Personnel Management to track all cart activity. With this kit, you can manage access and ensure compliance without disrupting workflow.

Furthermore, the software allows you to add, edit, or view user credentials in real time. This helps reduce administrative delays and improves accountability. As needs change, you can adjust access permissions quickly and efficiently.
