MPD Plastic Seals Accessory | TPS-1

Stock Photo – Options May Vary

FACTORY NEW

MPD Accessory: Plastic Seals TPS-1. The TPS-1 Plastic Seals from MPD offer a simple yet effective way to secure medical supplies, carts, and containers. Each package includes 100 durable seals designed for one-time use. Because they're tamper-evident, you can quickly identify any unauthorized access.

Apply them easily without tools, and trust that your equipment stays protected. These seals support everyday operations in both clinical and transport settings. Moreover, the TPS-1 seals serve multiple purposes across various departments.

Use them to seal crash carts, medication drawers, or emergency kits. As regulations tighten, these seals help meet compliance by providing clear evidence of tampering.
