

MPD Cart Accessory: Mini/Tower Shelf Unit | TBS-1

Stock Photo - Options May Vary

FACTORY NEW

The TBS-1 Mini/Tower Shelf Unit is a storage accessory designed for compatibility with MPD Mini and Tower Carts. It measures 14-1/16" x 18" and provides additional shelf space for organizing supplies, medications, equipment, and tools in hospital, clinic, and laboratory settings.

The shelf unit reduces drawer congestion by keeping frequently used items visible and easily accessible. Its compact design helps optimize organization in tight workspaces without compromising cart mobility. Installation is straightforward, allowing teams to quickly adapt the cart to specific workflow requirements.

The TBS-1 enhances cart versatility and supports professional environments that require clean, structured, and accessible storage systems. Note that the cart must be purchased separately.
