

MPD Cart Accessory: Optional Cart Extender TCE-1

Stock Photo - Options May Vary

FACTORY NEW

The TCE-1 is an optional cart extender designed for MPD Carts with 30" drawer space. It expands storage capabilities by adding valuable surface area, allowing you to organize more supplies without compromising mobility or workflow. This accessory is ideal for busy medical, clinical, or laboratory environments where extra space is always in demand.

The TCE-1 Cart Extender supports a wide range of optional accessories, including trays and a Med Lock Box, to create a custom storage setup. Durable and easy to install, this cart extender integrates seamlessly into your MPD cart system.

Whether you're expanding storage for medications, tools, or documentation, the TCE-1 provides the flexibility and support needed to optimize your workspace. Pair it with other MPD accessories to build a tailored cart configuration that fits your team's specific needs.
