MPD Twin Poly Handles Cart Accessory | TTW-3

Stock Photo – Options May Vary

FACTORY NEW

MPD Cart Accessory: Twin Poly Handles TTW-3. MPD offers a wide variety of accessories to customize your Standard or Select Cart for your specific clinical needs. These add-ons help improve mobility, functionality, and workflow. Whether you're organizing supplies or enhancing maneuverability, MPD has the right accessory.

Install them on either side to improve control during transport. In addition, their durable design ensures long-lasting performance in demanding healthcare environments. Use Twin Poly Handles to increase cart stability and reduce strain while moving equipment.

Cart not included; sold separately. Moreover, combine with other MPD accessories to create a cart setup that supports efficient, patient-centered care.
