MPD Unit Dose Cassette & Bins Medication Cart Accessory | TCA-20

Stock Photo – Options May Vary

FACTORY NEW

MPD TCA 20: Unit Dose Cassette & Bins Accessory. The MPD TCA-20 is designed for efficient medication storage and organization. Additionally, each set includes one durable cassette and 20 patient bins. Ideal for hospitals and long-term care facilities, this accessory enhances workflow and simplifies medication management.

Each patient bin measures 2-1/4″ high, 11″ deep, and 4″ wide, providing ample space for unit dose packaging. Additionally, the bins fit securely into the cassette, which integrates seamlessly into most standard medication carts. As a result, this compatibility makes it easier for staff to access and distribute medications quickly.

Built for durability and convenience, the TCA-20 system improves medication accuracy and storage efficiency.
