

MPD Standard 3 Drawer Isolation Cart | MKT-330-Y

Stock Photo - Options May Vary

FACTORY NEW

The MPD MKT-330-Y is a standard 3-drawer hospital isolation cart designed for reliable performance in healthcare settings. It features a 3-drawer configuration with two 9-inch and one 12-inch drawer, providing 30 inches of total drawer space for maximum storage capacity. The cart is constructed with either aluminum or steel in a double-wall design for durability.

The cart includes quiet ball bearing drawer slides for smooth operation and is equipped with 5-inch swivel casters—two locking and one directional—for controlled mobility. An outrigger stabilizing frame provides added stability during use. The latex-free design makes it suitable for sensitive environments.

Available in 17 solid and two-tone color options, the MKT-330-Y comes with an extra-thick plastic top and a 5-year limited warranty. The cart is manufactured in the U.S.A.
