

MPD Mini Tower 6 Drawer Cart with Electronic Lock | MLS-630

Stock Photo - Options May Vary

FACTORY NEW

The MPD MLS-630 Mini Tower Cart is a compact 6-drawer storage solution designed for space-limited environments. It features a slimmer profile with 3" full swivel casters (2 locking) and is available in E-Z Push Aluminum or Steel construction. The cart includes an electronic lock, quiet ball-bearing drawer slides with full extension capability, a stabilizer frame, and a free extra thick plastic top.

This mini cart offers flexible drawer configurations with three 3" drawers, two 6" drawers, and one 9" drawer, providing 30" of total drawer space. It is manufactured in the USA and available in 17 color options, including solid and two-tone finishes.

The MLS-630 combines durability with functionality, featuring full swivel casters for mobility and an outrigger stabilizing frame for secure operation. The electronic lock provides security for stored items, while the quiet ball-bearing slides ensure smooth drawer operation.
