

MPD Mobile Slanted Wire Shelving Unit | WRS-730M

Stock Photo - Options May Vary

FACTORY NEW

MPD Mobile Slanted Wire Shelving Unit: WRS-730. The MPD WRS-730 offers a dependable and versatile storage solution for medical and professional environments. This unit includes 30 durable bins, making it simple to organize and access essential supplies.

Its slanted wire shelving design ensures visibility and quick retrieval, helping staff stay efficient during daily operations. Additionally, the shelving unit features four 5-inch Poly Stem Casters for smooth mobility across different floor surfaces.

Two casters include locking brakes, allowing users to secure the unit safely in place when needed. With its mobile functionality, staff can easily transport supplies between rooms, boosting workflow and reducing downtime.
