MPD Standard Anesthesia Cart Accessory Package | TAP-B

Stock Photo – Options May Vary

FACTORY NEW

MPD Standard Anesthesia Cart Accessory Package: TAP-B. The MPD TAP-B Accessory package enhances your anesthesia cart's functionality with high-quality, easy-to-install add-ons. Designed to fit carts like the MKS-630, this accessory bundle adds convenient storage, organization, and utility. All components are crafted for long-term use in fast-paced healthcare settings.

Each accessory supports efficient access to medical tools and supplies during procedures. This MPD TAP-B package includes the TTR-6 Trellis System, which supports modular attachments. It comes with two TTB-5 Tilt 5-Bin Units for small item organization.

The TRS-2 Heavy Duty Railing offers added support and stability.

Brochure and images are a general overview of the product. Actual product options may vary.
