

MPD Standard Emergency Cart Accessory Package | TEP-B

Stock Photo - Options May Vary

FACTORY NEW

The MPD TEP-B Emergency Cart Accessory Package provides essential tools to upgrade emergency cart setup and is designed for compatibility with the MSB-630 Emergency Cart. This package includes key accessories for efficient code response, with each item adding convenience, safety, and organization to fast-paced emergency environments.

Included components are the TIV-1 IV Pole, TCB-1 Cardiac Board, TSN-2 Side Shelf, TRS-2 Heavy Duty Railing for stability, and TOB-1 Oxygen Tank Bracket for secure cylinder transport. These components improve equipment accessibility and patient care during emergencies.

For internal organization, the package includes the TMT-3K Tray Kit with two 4-3" trays and dividers, the TMT-5K Kit with two 5" trays and dividers, and TPS-1 Plastic Seals (100 per package) for added security.

**Brochure and images are a general overview of the product. Actual product options may vary.*
