MPD Trellis System Cart Accessory | STR-1

Stock Photo – Options May Vary

FACTORY NEW

MPD STR-1 Cart Accessory: Trellis System. The MPD Trellis System is a high-quality cart accessory designed exclusively for MPD Select Carts. This trellis system adds vertical storage, optimizing space for critical medical supplies. It installs easily and provides reliable support for compatible MPD accessories and trays.

MPD offers trellis systems for various cart types to meet different facility needs. Choose the TTR-6 Trellis System for Standard Carts or the TTR-7 for Mini Carts. Furthermore, for Select Carts needing only the bar, the SHB-1 Trellis Bar (no uprights) is available.

As a result, these options allow flexible, modular setups across departments.

Brochure and images are a general overview of the product. Actual product options may vary.
