MPD IV Pole Cart Accessory | TIV-1

Stock Photo – Options May Vary

FACTORY NEW

MPD IV Pole Cart Accessory: TIV-1. The MPD TIV-1 is a versatile cart accessory designed to enhance functionality for Standard and Select MPD Carts. Additionally, this adjustable IV pole telescopes from 13″ to 36″ above the cart, allowing flexible height positioning to meet various clinical needs.

Moreover, built for strength and convenience, the TIV-1 adds critical IV support without compromising mobility. This IV pole installs easily and integrates seamlessly with MPD's high-quality cart systems.

It provides a secure, stable mounting point for IV bags and related supplies. Furthermore, ideal for treatment rooms, emergency carts, or mobile stations, the TIV-1 ensures clinicians always have essential fluid management tools within reach.
