MPD Cart Scope Holder Cart Accessory | TSH-4

Stock Photo – Options May Vary

FACTORY NEW

MPD Cart Scope Holder Cart Accessory: TSH-4. The MPD TSH-4 provides secure, convenient storage for medical scopes, keeping them accessible and protected during transport or storage. The TSH-4 offers flexible mounting options—you can mount it to an MPD cart or directly to the wall—making it ideal for clinical, surgical, or diagnostic environments.

It helps reduce damage risk and keeps scopes organized and ready for use. Both the TSH-4 and the TSH-2 models offer the same secure design, but the TSH-2 is narrower, allowing two holders to fit on one side of the cart.

Furthermore, this makes the TSH-2 ideal for facilities needing increased scope storage in limited space.
