MPD Trellis System w/ Hooks Cart Accessory | TTR-5

Stock Photo – Options May Vary

FACTORY NEW

MPD Trellis System w/ Hooks Cart Accessory: TTR-5. The MPD TTR-5 enhances the storage capabilities of your MPD cart by providing a 3-tier vertical support system with integrated hooks. This design allows you to hang tubing, fluid bags, and essential accessories in a clean, accessible layout.

The trellis installs securely to compatible carts, helping medical staff stay organized and efficient during busy clinical operations. In addition to the TTR-5, MPD offers several other trellis system options to fit different cart models and facility requirements.

The TTR-6 is available for Standard Carts, while the TTR-7 and TTR-8 (which include hooks) are designed for Mini Carts.
