

Oakworks C-Arm Table Accessory - 1" & 2" Table Top Pads

Stock Photo - Options May Vary

FACTORY NEW

Oakworks C-Arm Table Accessory pads are designed to upgrade the comfort and functionality of CFPM and DTPM model tables. Available in both 1" and 2" thickness options, these pads allow facilities to customize their table setup based on procedural needs. All pads attach securely to the tabletop using Velcro and can be easily replaced when needed.

The standard 1" pad comes included with CFPM and DTPM tables. For longer procedures requiring additional cushioning and patient comfort, the optional 2" pads provide an enhanced upgrade. The Velcro attachment system ensures quick installation and removal without tools or complicated procedures.

These pads are a practical accessory solution for extending the usability of existing C-Arm tables and accommodating varying patient comfort requirements across different clinical applications.

FEATURES
