

# Oakworks CFPM400 Imaging Table: Integrated Headrest Top

*Stock Photo - Options May Vary*

## FACTORY NEW

The OAKWORKS® CFPM400 is a 4-movement imaging table designed to accommodate mobile and ceiling-suspended C-Arm systems for pain management and image-guided procedures. The carbon fiber top provides a height range of 26" to 43", supporting wheelchair transfers and full lateral C-Arm mobility. The table features 10" of powered longitudinal travel, 15° Trendelenburg, 12° Reverse Trendelenburg, and 15° lateral tilt capabilities.

The CFPM400 promotes 56" of metal-free imaging area for maximum C-Arm efficiency and supports up to 500 lbs. It is mounted on a low-profile base with 4 locking casters for easy mobility between rooms. The table is controlled by a single-hand control and includes radiolucent pads, a crescent face rest, cranial pads, and a safety strap.

The table is compatible with all major C-arm products and is suitable for pain management practices, surgical centers, hospitals, and multi-disciplinary medical facilities. It provides a cost-effective solution for C-Arm imaging applications.

## FEATURES

- Designed to accommodate mobile and ceiling-suspended C-Arm systems
- The CFPM400 is a 4 Powered Movement Table
- height range (without pad) of 26" to 43" (66-109 cm)
- Carbon fiber top
- 10" (25 cm) of Powered Longitudinal Travel
- Weight Capacity: 500 lbs (227 kg)
- Promotes 56" of the metal-free imaging area
- Controlled by 1 hand control

## SPECIFICATIONS

- 22" x 84" Carbon Fiber Top with integrated headrest
- 56" of metal-free imaging space
- Patient weight: 500 lbs (226 kg)
- Height Range: 26" - 44"
- Electronics: 110-volt motor + 2x24v Tilting Motors (1-foot control and 1-hand Control)
- Hand Rail Table Weight: 415 lbs (188 kg)
- Frame: Single tower steel base
- Warranty: 3 years parts, 2 years labor
